Dr. Jane Henney, M.D.
Commissioner
Food and Drug Administration
5600 Fishers Lane, Room 1471
Rockville, MD 20857

Dear Dr. Henney:

We are in favor of approving claims filed for the following products which have been proven to be effective in the treatment of certain diseases:

Saw Palmetto and the symptoms of BPH (**benign** prostatic hyperplasia);
Psyllium husk seeds and the risk of heart disease;
Folic acid, vitamin B6 and vitamin B12 for cardiovascular disease;
Vitamin E for cardiovascular disease.

Personally we have each had favorable experiences with all four of these "nufraceuticals" and recommend them to others who have physical problems similar to ours.

We hope you will use your influence to promote more detailed labels on these products and what they can potentially do for our health. Thank you.

Yours sincerely,

Dale E. Heath + Evelyn R. Heath
